

2019BCDCC-002-190309-SUB-ENV-Support net-zero carbon electrical energy

A resolution in support of carbon net-zero electricity in Washington State

3 **WHEREAS** fossil-fuel carbon emissions are undesirable pollutants that can be reduced economically;
4 and

5 **WHEREAS** inexpensive, clean electricity is a fundamental need in the state to reduce carbon
6 emissions;

7 **THEREFORE BE IT RESOLVED** that the Benton County Democrats urge our legislative delegations that
8 state and federal policies should include consideration of all net-zero carbon emission sources for
9 generating electricity; and

10 **BE IT FINALLY RESOLVED** that the Benton County Democrats urge policies which emphasize research and
11 development into the life cycle energy approaches to identify more efficient, less polluting, and economically
12 beneficial forms of energy.
